

To build political power, UTLA needs:

Chapter Political Coordinators - Central

In 2010-11 we won a string of election victories on the education front: Tom Torlakson, Marguerite LaMotte and Bennett Kayser. These successes must be followed up with building a from-the-ground-up political campaign that brings our members together, creates alliances, and mobilizes a voting base. Chapter by chapter, community by community and UTLA Area by Area, we need to put into action a vigorous organizing plan that instills member involvement and builds political power.

In 2012-13 we need to:

- Vote up a measure that will raise revenue for California's public schools.
- Defeat a "paycheck protection" measure designed to paralyze union political activity.
- Continue to shift the balance of power on the LAUSD School Board by electing candidates who understand and respect teachers.

A critical step is the recruitment of Chapter Political Coordinators who will promote political activism at school-work sites and help build an issues-based operation that exerts a powerful influence on School Board members and legislators. We need Chapter Chairs to identify member activists at sites willing to be trained in and then carry out the following:

Chapter Political Coordinator (CPC) responsibilities

- Promotes chapter awareness and participation in political activities, including UTLA-endorsed political campaigns.
- Builds campaigns at the local level with other members, other unions, community-based organizations, and UTLA leadership.
- Works with others to lobby school board members and legislators on the issues that most affect our schools.
- Periodically meets with the Area Political Coordinator in her/his Area.
- Carries out site-based PACE efforts, including contribution drives.
- Participates in training and receives support.

In addition, the Chapter Political Coordinator should be included as a member of the site Chapter Steering Committee. Ideally there should be a CPC for each track at a year-round school.

I, _____ # _____, Chapter Chair at _____
