4-6 PHBAO Magnet	31	30	30	30	30	↓ 1	
6-8 PHBAO Magnet	34	33	32	30	30	↓ 4	
9-10 PHBAO Magnet	34	33	32	30	30	↓ 4	
11-12 PHBAO Magnet	34	33	32	30	30	↓ 4	

* Nearly 150 TK3 Classes that are currently in violation of the MOU due to Section 1.5 will experience an immediate reduction, due to the complete elimination of Section 1.5

** Secondary ELA and Math classes will be capped at 39 effectively 2019-20.

‡ For TK-3 magnet classes, the 2017-18 class size MOU that reductions are based on, has lower caps than the CBA. UTLA will have the opportunity to bargain to lower caps before the higher caps become effective in 2022-2023.

ADDITIONAL TARGETED CLASS SIZE REDUCTIONS

- 1) 75 targeted high needs elementary and 15 middle schools will be reduced by a total of 3
- 2) 75 targeted high needs elementary and 15 middle schools will be reduced by a total of 4
- 3) 75 targeted high needs elementary and 15 middle schools will be reduced by a total of 6

CLASS SIZE AVERAGES

The steady reduction of class size maximums will naturally reduce class size averages.

Class size averages will be officially reduced to CBA levels (from the 1.5 MOU) in 2022-23.
