

We Are Committed to Take ACTION for a Fair Contract!

We demand respect for educators and students, and funding for our schools. There is money in Los Angeles. The district is refusing to move it to prioritize students. The billionaires are blocking other monies. Politicians are letting it happen. Working conditions that show dignity to educators create great learning conditions for students. We demand that the district agree to our proposals for the Schools LA Students Deserve.

- Fair pay
- Smaller class sizes
- More counselors, nurses, social workers, teacher librarians and other staff
- Accountability for charters; stopping unregulated growth from undermining public schools
- Special education supports and social/emotional programs for students
- Teaching, not testing and mandates; more voice, professional rights, and dignity for educators
- Community Schools and Common Good demands

WE WILL TAKE ACTION!
